Slumber Party \$55

If you would like your pooch to spend their stay with some friends, book the "Slumber Party!" room. The large open area is filled with comfy beds and cots where the kids can snuggle up together, or stay up a little late! During breakfast and dinner time, all of our guests will be fed separately...we know that not everyone likes to share 😊

Very few dogs may stay in the room at the same time and is not suitable for all dogs. TBL reserves the right to deny any dog that is deemed unfit for our open sleeping environment, as there will not be a staff member in the room with them overnight.

Individual Boarding \$59

If our furry friends are not part of the doggie daycare program, they are played with individually and pampered with one on one attention. Throughout the day, they have a chance to run free in our large indoor and outdoor play areas to release all their energy. This way, they can enjoy the freedom of the open environment and outdoors just like our daycare guests. This could be for dogs that are fearful, un-socialized, anxious, or have an extremely high-energy level of play that might disrupt the play group. It includes one 15 minute leash walk per day...More walks or one on ones can be purchased....kisses and hugs are always free.

Private Suite \$60

Our large private suites are for guests who are enrolled in our daycare program but prefer to sleep in private quarters away from the other dogs, similar to a bedroom

setting. This option is good for dogs that have anxiety, tend to stress away from home, are older or don't react well to dogs next to them. This option may be required by TBL staff.

**CASH Discounts available. Please ask for quote at time of booking.*
